

## Press Release: April 27<sup>th</sup>, 2022

Speedtech Performance signs two-year deal to sponsor the Autocross segment of LS Fest Texas. This two-night event will be held at Texas Motor Speedway and this year will run Friday and Saturday night June 17/18, 2022.

**Speedtech Performance LLC. signs on as segment sponsor for Autocross at LS Fest Texas**

Saint George, Utah — Speedtech Performance is honored to announce we are the Autocross segment sponsor at the recently announced LS Fest Texas which will take place at Texas Motor Speedway June 17-18, 2022. The two-year agreement will see Speedtech Performance return as the autocross segment sponsor in 2023.

The LS Fest events have been wonderful to participate in the last 4 years and now Speedtech Performance are stepping up a level to be a segment sponsor. At this level, the Autocross segment is the clear choice for Speedtech Performance because of our rich product line of Pro Touring suspension for muscle cars. Our range of products are tailored to people who want a modern driving experience in a classic muscle car without changing the original styling of the car. Speedtech Performance offers products for domestic muscle cars from the 50s up through 1996 including Belair, Trucks, and Pony-Cars. Our products deliver a high level of chassis rigidity, refined comfort, and performance on the road or in competition for GM, Ford and Mopar cars and trucks.

This is the first time Speedtech Performance is coming to LS Fest as segment sponsor. We have many clients that are participating in big events like this all year long, LS Fest TX is another opportunity for us to directly support our

customers, and nurture industry growth. Several Speedtech Performance customers have already registered for the event, and we hope more will come now that we have committed to being there with full support. Speedtech Performance will attend LS Fest Texas in June with our mobile showroom, subject matter experts and technical support.

Speedtech Performance have a strong passion for classic muscle cars. These cars had impressive horsepower but when it comes to cornering and braking performance, they are not renowned. Speedtech Performance address this with our design and manufacture of chassis and suspension to make classic muscle cars perform like modern supercars. For more information contact Speedtech Performance today at (435) 628-4300.
